5-12

Colours

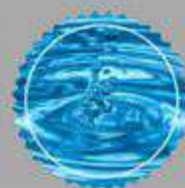

FEATURES

- **Important:** Claw water shoes/slip ons fit the foot exactly like a pair of shoes. Example, if you normally wear a size 4, our size 4 will fit perfectly
- The nitrile decreases acid attack and ensures longer sole life in blood, fat and acid conditions
- Thicker sole ensures better wear and reduces stud pressure
- Tough and rugged, yet stylish branding
- Reinforced, thickened toe for greater personal protection
- Completely washable
- CLAW "TOES FREE" System - The continued movement of the toes inside the front of the boot creates a bellows effect pumping out hot air and taking in cool which reduces bacterial growth
- Soft padded thermal sock gives added comfort and reduces temperature transfer through the sole by 4 degrees C
- Profile for climbing

IMI International
quality standards &
