

Chemical Protective Clothing, Category III Type 5B, 6B

Product Description and design

The DuPont™ Tyvek® Classic Xpert, model CHF5 hooded coverall is robust yet lightweight and includes a 3-piece hood for optimal fit to head and face when turning. The coverall features an elasticated face, wrists and ankles as well as a glued-in waist elastic and ample crotch area for freedom of movement,

Tyvek® garments are composed of flash spun high density polyethylene, providing an ideal balance of protection, durability and comfort.

The Tyvek® zipper and flap also part of the design ensuring an effective barrier to harmful substances and working environments such as pharmaceutical handling, chemical processing, the oil and gas industry, general maintenance and operations, automatic spray painting and many others.

Certifications:

- Chemical Protective clothing, Category III, Type 5-B and 6-B
- EN 14126 - Barrier to infective agents
- EN 1073-2 - Protection against radioactive contamination
